## Why Choose TimberBoard?

TimberBoard is a rigid wood fiber insulation panel for continuous exterior and interior wall, floor, and ceiling insulation. Made in Maine from sustainably harvested wood byproducts, TimberBoard's healthy, high-performance, climate-responsible construction sets a bold new benchmark for insulation.

- **High R-Value:** Tested to R-3.4 to R-3.7 per inch. Panels from 1" (R3.6) up to 9.25" (R34) for superior insulation
- **Fire Resistant:** Tested to ASTM E84 Class B Flame/Smoke (even without added chemical retardants)
- **Moisture Smart & Durable:** Moisture-resistant yet vapor-open to manage moisture and prevent mold, rot, and condensation
- **Acoustic Comfort:** Outstanding sound dampening for peaceful, private homes and workspaces
- **Sustainable & Safe:** Carbon-negative, made from Maine forestry byproducts, Red List Free, non-toxic.
- **Easy to Install:** Rigid panels cut and fit with standard tools; itch-free, clean-handling
- **American Innovation:** Sourced and manufactured in Maine, supporting regional jobs and healthy forests

## Program Details

**Order Window:** Sept 15–Dec 1, 2025 (or while promo supply lasts)

**Promotion:** 40% or more off standard pricing. Excludes shipping. Pricing resets Dec 1, 2025.

**Eligibility:** Available anywhere in the U.S. for use on active residential, multifamily, and commercial projects, including upgrades, new construction, LEED, Passive House, and high-performance enclosures

**Applications:** Residential or commercial construction only (not for resale or stockpile)

**Feedback:** Early adopter insights requested to help us perfect TimberBoard for the market

\*Pre-certified through TimberHP's internal quality system; third-party certifications pending.
