

PhiusGEB + Microgrids

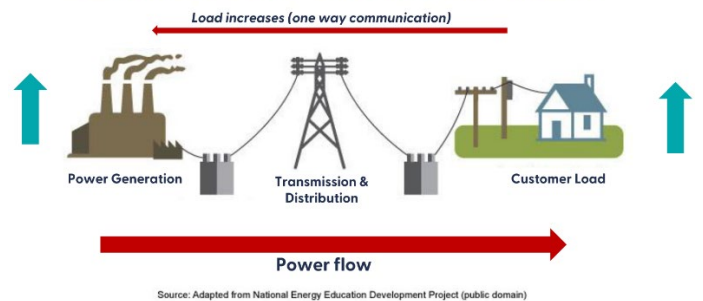

Tapping into the Synergies Toward Building Decarbonization

Tuesday December 13th from 12 PM to 1 PM

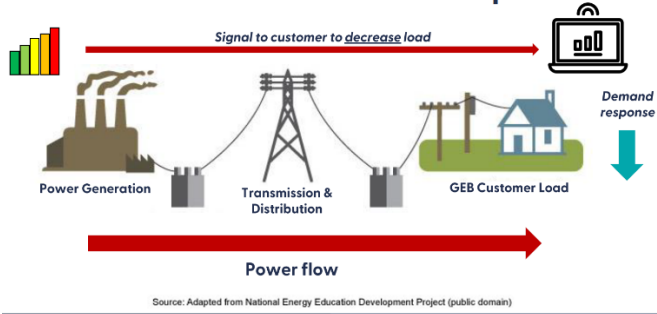

‘Net Zero’ addresses “how much” but on its own does not address two key concepts that further reduce operational emissions and facilitate grid decarbonization: Low Peak Loads & Timing of Energy Use therefore, the need for Grid-Interactive Efficient Building – GEB

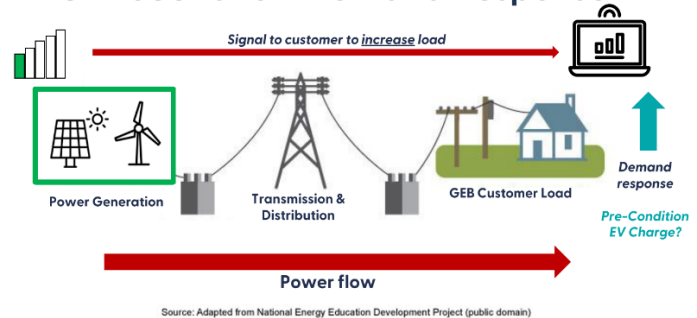

Current Electric Grid Infrastructure

GEB Scenario – Demand Response

GEB Scenario – Demand Response
