ANNOUNCING

The Fire Industry Education Resource Organization's

23rd

FIRE STATION DESIGN SYMPOSIUM

and

call for entries to the

19th

FIRE FACILITIES

DESIGN AWARDS PROGRAM

The Fire Industry Education Resource Organization's (F.I.E.R.O.*) Fire Station Design Symposium and Fire Facilities Design Awards Program seek to enhance the understanding of fire officials, mayors, city managers, budget directors, architects and others of the functional requirements of a modern fire station and raise a fire department's expectations regarding the architectural possibilities in a fire facilities design project.

The symposium's presenters are carefully drawn from the architectural, fire service, academic and building construction communities. Details on each AIA approved session topic as well as conference registration, hotel reservations, and exhibitor information are on F.I.E.R.O.'s website at <www.fieroonline.org>."

The jurors for F.I.E.R.O.'s awards program have design experience in fire facilities and the fire service. The web site has entry requirements for the fire facilities design awards program.

*F.I.E.R.O. is an IRS recognized 501(c)(3) nonprofit organization.

2024 award winning architectural design firms for projects shown are:

1. OPN Architects (Honor Award, New Construction)
2. Weinstein A + U (Honor Award, New Construction)
3. Perlman Architects (Merit Award, Renovation and Addition)
4. Rice Fergus Miller (Merit Award, New Construction)
5. H2M Architects Engineers (Merit Award, New Construction)
