PRESENTED BY TED MONTGOMERY
IN CONJUNCTION WITH THE

Thursday, May 21, 2026

6 PM The Community Room at BCA Studios
405 Pine Street, Burlington, Vermont

My life has been blessed with so many opportunities to create, design, fabricate, install, and rejoice in dozens of heartfelt projects involving family, friends, clients that would become friends, and a few others that were just passing through.

Without really knowing why, I have been on a path challenging my skill since I can remember.

Design has always been central to my healthy, creative existence.
