

PRESENTS:

## **Whole-Building Ventilation Systems: Providing Healthy, Comfortable and Energy-Efficient Indoor Solutions**

A Presentation by

John Rockwell

Northeast Technical Sales Engineer, Zehnder America

---

**This workshop will cover all the details of heat recovery and energy recovery ventilation, and the specific applications of one or the other, depending upon climate conditions. Participants will learn about:**

- advantages and weaknesses of supply-only, exhaust-only, and balanced ventilation systems
- how heat recovery ventilation enables a comfortable and healthy environment
- HRV/ERV's role in building an energy-efficient home
- how to evaluate and choose the most effective HRV/ERV system

---

“Zehnder America” is a Registered Provider with The American Institute of Architects Continuing Education Systems (AIA/CES). Credit(s) earned on completion of this program will be reported to AIA/CES for AIA members. Certificates of Completion for both AIA members and non-AIA members are available upon request. This program is registered with AIA/CES for continuing professional education. As such, it does not include content that may be deemed or construed to be an approval or endorsement by the AIA of any material of construction or any method or manner of handling, using, distributing, or dealing in any material or product. Questions related to specific materials, methods, and services will be addressed at the conclusion of this presentation.

Date: Thursday, May 11th, 2017    Time: 6:30 PM to 8:30 PM

Location: 311 Aiken Center, UVM campus

Parking is available in the main lot near the water tower.

Admission: Free, with refreshments after the presentation

John Rockwell is an expert on HRV and ERV ventilation systems. We hope to see you there for this unique opportunity!

**Sponsored by Vermont Passive House**
